Dear Parents/Carers,

The week beginning 13th March will be British Science Week, and this year, the theme is connections.

Nearly all innovations in science, technology, engineering and maths are built on connections between people. After all, two (or more) heads are better than one!

We would like to take this opportunity to build connections between our school and organisations/companies that operate within the STEM community. Our hope is that, with these links, children will be able to see the application of their learning in real life contexts.

If you work within the STEM area, and are willing to spare some time during this week to come in and speak to our children, please contact Mr Robinson at imnrobinson@inglebymill.org.uk.

Kind regards,

Mr N. Robinson
