Dear Parents/Carers,

This week is British Science Week, and this year, the theme is connections.

I would like to run a competition throughout the week allowing the children to make connections between their learning in school and their life at home.

For the competition, I would like the children to take a 'Science Selfie'. This can be a photo/selfie of themselves (or they might want to include their family as well) doing something related to their learning. E.g. holding an animal, looking at habitats, conducting an investigation, making something with materials, growing plants, looking at the stars, creating an interesting shadow etc. This will also be a good opportunity for the children to tell you more about what they are learning in science.

Selfies, along with a sentence about what the selfie is about, can be sent in to [imnrobinson@inglebymill.org.uk](mailto:imnrobinson@inglebymill.org.uk) before 12:00, Friday 17<sup>th</sup> March. Please ensure that your child's name and class are in the subject. Prizes will be won for the most creative "selfie".

Kind regards,

Mr N. Robinson
